Gauge A gauge is a read only block type that shows a fixed range of values.

Test Value

45

The screenshot shows the 'Connect Feeds' dialog box in the Adafruit IO interface. The dialog has a title bar with a close button. Inside, there's a paragraph explaining that the line chart is for one or more feeds. Below this is a text input field for searching feeds. A table titled 'Default' lists available feeds. The first row is 'estado-bomba' with a last value of 1 and a recorded time of about 1 hour. The second row is 'umidade-solo' with a last value of 63 and a recorded time of about 1 hour. Below the table is a text input field for entering a new feed name. At the bottom, it indicates '1 of 5 feeds selected' and has 'Previous step' and 'Next step' buttons. The background shows a blurred view of the Adafruit website with a gauge for 'Umidade do Solo'.

Feed Name	Last value	Recorded
<input type="checkbox"/> estado-bomba	1	about 1 hour
<input checked="" type="checkbox"/> umidade-solo	63	about 1 hour
